

Humans (and other animals) find out about the world using their senses.

Humans have 5 senses—

These senses are linked to particular parts of the body.

I can **see** with my **eyes**.

I can **hear** with my **ears**.

I can **taste** with my **tongue**.

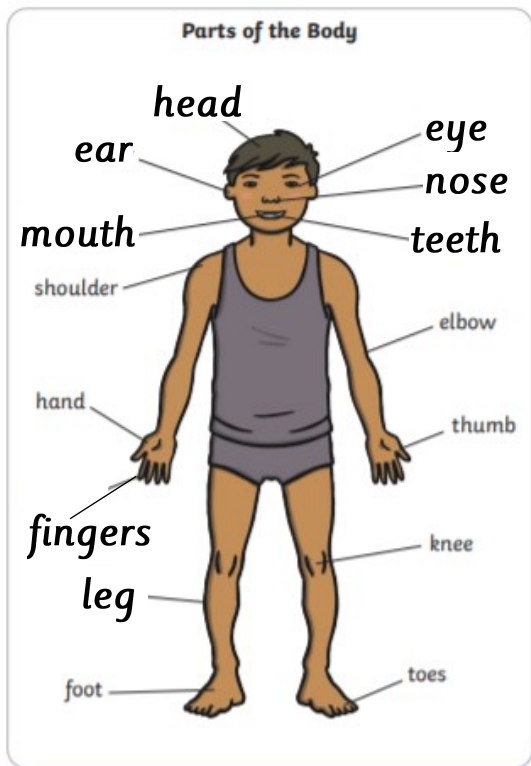

I can **touch** with my **fingers** and **skin**.

I can **smell** with my **nose**.

Humans have similar body parts but everyone is different.

Animals eat different things.

Some animals eat other animals (meat)..

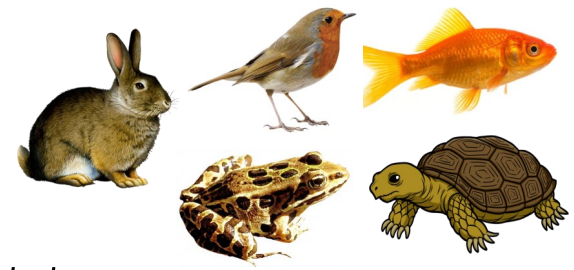

Some animals eat plants..

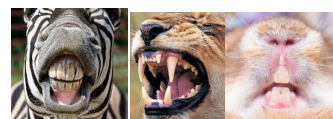

Some animals eat both plants and animals.

How many different animals can you name?

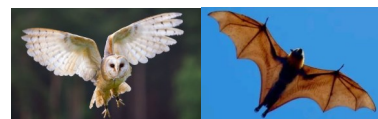

Animals can have very different body parts.

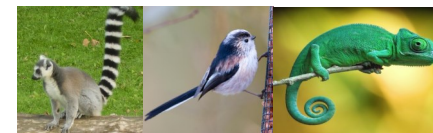

teeth

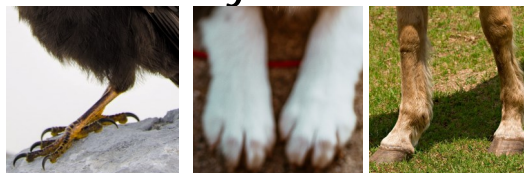

ears

wings

tails

claws

paws

hooves

Can you name the animals these body parts belong to?

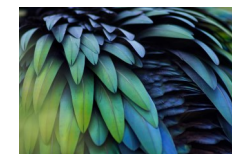

They also have different skin coverings

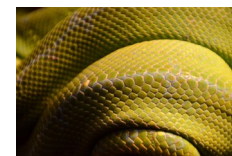

fin

beak

feathers

scales

fur
